Profile

Flutter Developer with **2+ years of experience** building cross-platform Android and iOS applications. Skilled in **Flutter, Dart, Firebase, REST APIs, state management, payment integration, and real-time features**. Experienced in building responsive, high-performance mobile applications with clean architecture, API integrations, and production-ready workflows.

Technical Skills

Framework & Language: Flutter, Dart

State Management & Architecture: Provider, GetX, MVC, MVVM, Clean Architecture

UI/UX: Figma-to-Flutter, Responsive UI, Dark Theme, Animations, Custom Widgets

Integrations: Firebase (Auth, Realtime DB, Firestore, Push Notifications), Google Maps SDK, RESTful APIs, AI integration (LLM chatbots, smart features), Payment Integration

Storage & Performance: SQLite, SharedPreferences, Caching, Offline Support, Flutter DevTools, Optimization

Tools: Git/GitHub, Postman, VS Code, Android Studio

Deployment: Google Play Store, Apple App Store

Experience

Flutter Developer

Aug 2025 – Present

The CloudOps

Lahore, Pakistan

- Building Flutter apps for Android and iOS with a focus on performance, responsive UI, and clean architecture.
- Integrating REST APIs, Firebase, authentication, notifications, real-time data, and third-party services.
- Working with backend and cross-functional teams to build, debug, optimize, and maintain production apps.

Junior Flutter Developer

Dec 2024 – July 2025

Smart Computings

Lahore, Pakistan

- Converted Figma designs into **pixel-perfect, responsive UIs** across multiple screen sizes.
- Improved app performance by **30%** using Flutter DevTools, code optimization, and caching strategies.
- Collaborated with backend team to integrate APIs and manage data flow between frontend and backend.

Flutter Developer (Intern)

Sep 2024 – Nov 2024

MindRind

Lahore, Pakistan

- Assisted in building scalable mobile applications using Flutter with Provider and GetX state management.
- Worked on REST API integration and handled application data flow between screens and services.
- Collaborated on real-world projects, debugging issues and learning platform integration.

Projects

Be-Mindpower | Flutter, Firebase, WebSockets, Crypto APIs, AI, REST APIs

Google Play

- Developed a multi-module Flutter app with responsive UI and core platform features.
- Integrated APIs, Firebase, and local storage; achieved **1K+ downloads** with ongoing growth.

Survey Assessment App | Flutter, GetX, REST API

Google Play

- Interactive survey app with real-time result generation and response tracking.
- Implemented REST APIs with GetX for efficient state and API response management.

Vaihok — Super App | Flutter, Dart, REST APIs

Google Play

- Developed a multi-module super app with responsive Flutter UI and core functionalities.
- Integrated REST APIs, Firebase, location sharing, notifications, and cross-device synchronization.

Goffix | Flutter, Firebase, Provider, REST APIs

Google Play

- Built a real-time marketplace app connecting users with local service providers.
- Added ads and business promotion features; achieved **1K+ downloads** with a **4.5 rating**.

Education

Superior University

2021 – 2024

Bachelor of Science in Computer Science

Lahore, Pakistan
