## Profile

Flutter Developer with **2+ years of experience** in building cross-platform mobile applications. Skilled in **Flutter, Dart, GetX, Provider, Firebase, RESTful APIs, and payment integration**. Experienced in building responsive, high-performance apps with clean architecture and strong user experience.

## Technical Skills

**Framework & Language:** Flutter, Dart

**State Management & Architecture:** Provider, GetX, MVC, MVVM, Clean Architecture

**UI/UX:** Figma-to-Flutter, Responsive UI, Dark Theme, Animations, Custom Widgets

**Integrations:** Firebase (Auth, Realtime DB, Firestore, Push Notifications), Google Maps SDK, RESTful APIs, AI integration (LLM chatbots, smart features), Payment Integration

**Storage & Performance:** SQLite, SharedPreferences, Caching, Offline Support, Flutter Profiler, Performance Optimization

**Tools:** Git/GitHub, Postman, VS Code, Android Studio

## Experience

### Flutter Developer

**Aug 2025 – Present**

*The CloudOps*

*Lahore, Pakistan*

- Developing scalable cross-platform Flutter Mobile applications focused on performance and user experience.
- Gained hands-on experience in backend integrations, real-time data handling, and application architecture.
- Collaborating with cross-functional teams to build and maintain production-level applications.

### Junior Flutter Developer

**Dec 2024 – July 2025**

*Smart Computings*

*Lahore, Pakistan*

- Converted Figma designs into **pixel-perfect, responsive UIs** across multiple screen sizes.
- Improved app performance by **30%** using Flutter DevTools, code optimization, and caching strategies.
- Collaborated with backend team to integrate APIs and manage data flow between frontend and backend.

### Flutter Developer (Intern)

**Sep 2024 – Nov 2024**

*MindRind*

*Lahore, Pakistan*

- Assisted in building scalable mobile applications using Flutter with Provider and GetX state management.
- Collaborated on real-world projects, debugging issues and learning platform integration.

## Projects

**PJOW (Private Jet One Ways) – Aviation Platform** | Flutter, GetX, Firebase, REST APIs, Stripe

- Developed a multi-role platform (Admin, Broker, Operator, Flyer) with booking and workflow management system.
- Implemented role-based authentication and real-time tracking with scalable Flutter architecture.

**Be-Mindpower** | Flutter, Firebase, WebSockets, Crypto APIs, AI, REST APIs

- Developed a multi-module ecosystem with responsive Flutter UI and core functionalities.
- Integrated APIs, Firebase, and local storage for smooth performance; 1K+ downloads and ongoing.
- **Link**

**Jewles Airport Transfers – Transport Booking App** | Flutter, Firebase, Provider, REST APIs

- Built an airport transfer booking app with scheduled pickups, trip history, and customer management system.
- Implemented smooth booking flow with REST API integration and scalable state management.
- **Link**

**Survey Assessment App** | Flutter, GetX, REST API

- Interactive survey app with real-time result generation and response tracking.
- Implemented REST APIs with GetX for efficient state and API response management.
- Implemented secure user authentication and session management..

## Education

### Superior University

**2021 – 2025**

*Bachelor of Science in Computer Science*

*Lahore, Pakistan*
