

MUHAMMAD HANIF

Flutter Developer | Mobile App Developer

📍 Lahore, Pakistan 📞 +92-3424351483 ✉ hanifatwork46@gmail.com 🔗 linkedin/muhammad-hanif 🌐 hanif-portfolio

Profile

Flutter Developer with **3+ years of experience** developing cross-platform Android and iOS applications. Skilled in **Flutter, Dart, Firebase, REST APIs, state management, payment integration, and real-time features**. Experienced in building responsive, scalable, and high-performance apps with third-party integrations, clean architecture, and production-ready workflows.

Technical Skills

Framework & Language: Flutter, Dart

State Management & Architecture: Provider, GetX, MVC, MVVM, Clean Architecture

UI/UX: Figma-to-Flutter, Responsive UI, Dark Theme, Animations, Custom Widgets

Integrations: Firebase (Auth, Realtime DB, Firestore, Push Notifications), Google Maps SDK, RESTful APIs, AI Integration (LLM Chatbots, Smart Features), Payment Integration

Storage & Performance: SQLite, SharedPreferences, Caching, Offline Support, Flutter DevTools, Optimization

Native Mobile: Android, iOS, Kotlin, Java, Native Android/iOS Integration

AI Development Tools: Claude Code, Cursor, OpenAI Codex, Google Antigravity

Tools: Git/GitHub, Postman, VS Code, Android Studio

Deployment: Google Play Store, Apple App Store

Experience

Senior Flutter Developer

Aug 2025 – Present

The CloudOps

Lahore, Pakistan

- Building Flutter apps for Android and iOS with responsive UI and scalable architecture.
- Integrating REST APIs, Firebase, authentication, notifications, payments, and real-time features.
- Improved app performance by **30%** through optimization, caching, API handling, and DevTools analysis.

Flutter Developer

Dec 2024 – July 2025

Smart Computings

Lahore, Pakistan

- Built responsive, pixel-perfect Flutter UIs from Figma designs across multiple screen sizes.
- Integrated REST APIs and Firebase for authentication, data handling, and backend-driven features.
- Developed reusable widgets while debugging and collaborating with backend developers.

Junior Flutter Developer

Sep 2024 – Nov 2024

MindRind

Lahore, Pakistan

- Developed Flutter features using reusable widgets, responsive layouts, and structured Dart code.
- Integrated REST APIs and managed data flow between application screens and backend services.
- Assisted with debugging, testing, and resolving UI and functional issues across mobile applications.

Freelance Flutter Developer

2023 – 2024

Self-Employed

Pakistan

- Developed cross-platform Flutter applications for Android and iOS based on client requirements.
- Built responsive UIs from Figma and integrated REST APIs, Firebase, payments, maps, and notifications.
- Managed projects from requirements to release and communicated directly with clients.

Projects

Be-Mindpower | Flutter, Firebase, WebSockets, Crypto APIs, AI, REST APIs

Google Play

- Developed a Flutter platform with chat, finance, music, marketplace, community, health, nutrition, and AI modules.
- Integrated Firebase, WebSockets, REST APIs, AI services, and local data handling; achieved **5K+ downloads**.

4DOST | Flutter, Google Maps, Firebase, REST APIs

Google Play

- Built a local business discovery app for restaurants, deals, coupons, events, food delivery, and services.
- Integrated Google Maps, Firebase, and REST APIs; **10K+ downloads, 4.9 rating, 349 reviews**.

Goffix | Flutter, Firebase, Provider, REST APIs, Google Maps

Google Play

- Built a real-time marketplace app connecting users with local service providers and delivery services.
- Integrated REST APIs, Firebase, Google Maps, and Provider; **1K+ downloads** with a **4.5 rating**.

Education

Superior University

2021 – 2024

Bachelor of Science in Computer Science

Lahore, Pakistan
